HI-ACRYLIC Metal Roof and Multi-Use Building Sealant Tapes

Product Uses

AST Sealant Tapes are used to seal out dust, air, wind-driven snow, and moisture through joint details in metal buildings and similar structures, both pre-manufactured and site-built. They are ideal as joint filers in expansion/compression seals in joints that are subject to movement from thermal expansion and contraction of a structure, and as gasket-type seals in mechanically fastened, non-moving applications such as lap seams.

INNER CLOSURE STRIP

OUTER CLOSURE STRIP

ADDITIONAL PRODUCTS

S-M BUTYL TAPES

Tacky Tape® is a 100% solids asbestos-free butyl tape sealant that is a highly rubbery, tacky, reinforced compound designed for sealing metal lap joints in the metal building industry. It is easy to apply and compress during installation. It is available in various sizes supplied in ready-to-use rolls and pre-cut end lap pads for standing seam roof (SSR) applications.

(Also available in double and triple bead rolls and end lap pads)

NPC SOLAR SEAL 900 SEALANT

#900 SOLAR SEAL - Based on terpolymer elastomer technology, offers an alternative to silicone & urethane chemistry. Protect your investments with high performance terpolymer chemistry that impart exceptional weather resistance, adhesion, elongation and color stability to SOLAR SEAL.

Available in over 200 colors

BUBBLE REFLECTIVE INSULATION

The white polyethylene film is protected against UV rays Aluminum – 2 layers of bubbles – White polyethylene
Thickness: 5/16" – 8mm

Sizes available:

- Widths: 48", 72", 96"
- Lengths: 62.5', 125'

Type: Square edge, 1" or 2" staple tab, 1" quick seam tape for faster installation.

ABOUT OUR COMPANY

Circle Bolt & Nut Inc. has over 30 years experience to the construction industry. We are an international supplier of fasteners, specialty hardware, and value added services. Since 1979, Circle has grown from one facility in Pittston, PA to national coverage through seven full service branches and other types of satellite warehouse & service locations. Our corporate headquarters is now located in Kingston, PA.

Circle Bolt & Nut is known for exceptional customer support through our dedicated employees throughout North America. Our employees have a vast level of technical expertise in Class C Hardware specifications, and supply management techniques. Total customer satisfaction is further achieved through adherence to our ISO 9001:2008 Quality Management System that is Applicable for Distribution of Commercial & Aerospace Fasteners, Sealants, Abrasives and Hardware.

As a premier supplier of a wide variety of parts and components, we are constantly expanding our product offering. We look forward to meeting your needs for standard fasteners to complex assemblies. We are confident that we can meet your product, service and cost expectations by providing ***the right part - at the right price - at the right time.***

Thank you for the opportunity to prove our value to your organization. Contact us at one of our full service branch locations.
